

Project Report/February 2023

StoFloor Comfort Classic BB 100 floors for Poznan „Exclusive Dental Studios“

Functionality and an elegant finish was required by the operator of the "Exclusive Dental Studios" in Poznan, Poland. The offices, treatment rooms and laboratory at the three locations were fitted with the StoFloor Comfort Elastic BB 100 coating system. The surface is of high visual quality and the seamless finish combines the desired exclusivity with the best cleanability and thus hygiene. The floor is chemically resistant, low in emissions and suitable for castor chairs – giving the best solution for high-traffic floors in public areas.

Properties of StoFloor Comfort Elastic BB 100

- Tough elastic PUR coating system
- For recreation and social areas in care facilities, schools and kindergartens
- Chemically resistant to a variety of special media
- Surface of a high visual quality
- Seamless surface appearance
- Low-emission, solvent-free
- Crack bridging, flame retardant, impact sound reducing
- Good cleanability
- AgBB*-tested and externally monitored system structure
- Suitable for castor chairs
- Individual, object-related colour design possible

*AgBB: German committee for the health assessment of building products
